

THE SINGLE ACTION

REVOLVER

*Hand-crafted quality.
Dedicated to our Heritage.*

For historical accuracy, all U. S. Fire Arms revolvers use a solid firing pin. Always keep the hammer down on an empty chamber for safety.

In 1873, the original cost was \$16.00.
Expensive for a Single Action Revolver?

Sure. But, check the history books. To every soldier, lawman, cowboy and quite a few outlaws it was priceless. With A MSRP of \$1,075.00 ours costs a bit more, but we make it better than the original. Choose from seven calibers. Three barrel lengths, with or

without ejector. A wide choice of grips. Hand-crafted to your specifications. For more information, see your dealer, call 1-860-296-7441, or visit our website www.usfirearms.com

THE U.S. FIRE ARMS STORY

U.S. Fire Arms is dedicated to preserving our heritage and the tradition of gun-making that began in the Connecticut River Valley more than 150 years ago. Like the originals, our guns are hand-made by skilled craftsmen, a rarity in today's world. We believe it is the only way to maintain the look and feel of the 19th century and, yet, derive the benefits of current technologies. The SAA, Pre-war and "Specials" are examples of our determined effort to produce historically accurate firearms of the highest quality.
